## HYDRAULIC RAM KIT

This TradeQuip "Made for the Trade" Hydraulic Ram Kit includes 2 puller rams and 5 pusher rams for lifting, pushing, pulling, bending, and straightening. A must for a variety of auto body, frame repair, and construction jobs. Ram and cylinder bearings are designed for protection against off-centre load stresses. High flow quick-connect coupler with dust cap. TradeQuip quality multi-purpose hydraulic rams are used for automotive, truck, farm and heavy equipment repair. Quality steel design with high gloss enamel coating for durability and longevity.

**MADE FOR THE TRADE**

### Features

- Used for pulling, pushing, bending, lifting, straightening and spreading operations in auto body & heavy equipment frame repair
- Hardened, heat treated steel design for durability and long service life
- High gloss enamel coating prevents corrosion
- Uses a common 1/4" NPT attachment to connect to a hydraulic pump for up to 10,000kg of pneumatic power
- Comes in heavy duty metal transport case for organisation and storage
- Individual rams available separately

### Set includes

- 2,000kg Mini Ram - Compressed 139mm > Stroke 76mm > Working Pressure 5792psi
- 4,000kg Mini Ram - Compressed 42mm > Stroke 16mm > Working Pressure 9235psi
- 10,000kg Mini Ram - Compressed 118mm > Stroke 60mm > Working Pressure 8939psi
- 4,000kg Porta Power Ram - Compressed 276mm > Stroke 132mm > Working Pressure 8045psi
- 10,000kg Porta Power Ram - Compressed 350mm > Stroke 150mm > Working Pressure 8045psi
- 2,000kg Pull Back Ram - Extended 409mm > Stroke 128mm > Working Pressure 7887psi
- 5,000kg Pull Back Ram - Extended 483mm > Stroke 130mm > Working Pressure 9669psi
- 2 x 2,000kg 360° Swivel Double-End Hooks
- 2 x 5,000kg 360° Swivel Double-End Hooks
- Blow Mould Carry Case: 530 x 500 x 110mm
- Weight: 24kg
