RED LABEL

Product Code: BTJ60TA

Air Hydraulic

Truck Jack

Safe Working Capacity 60,000kg

The BTJ60TA quickly and easily manages a hefty 60,000kg. This Air Actuated Commercial Jack is designed for heavy duty commercial use and features a long reach "T" handle and large rubber wheels for smooth manoeuvring around the workshop. As always with BORUM, safety is just as important as industrial standard quality, so all BORUM Truck Jacks have a built-in safety valve to prevent overloading and keep the operator safe. With a minimum height of 420mm this jack is ideal for high axle vehicles and a high lift maximum of 1031mm (includes additional lifting saddles), this BORUM Air Actuated Jack is a very versatile heavy-lifter suitable for most workshops.

Features

- Seals made in America
- Double Sealing Function using XTP Industry Sealing
- Telescopic air actuation lift (air-hydraulic pump)
- Long T-handle easily positions jack under vehicle
- Self-Returning Lowering and Lifting Switch
- Internal and External Cylinders hard chromed
- High manoeuvrability & deep reach under vehicles
- Designed for extremely high axles
- 2 extension adaptors / saddle plates
- Large rubber wheels
- All adaptors can be properly stored for transport on each side of the jack

**INDUSTRIAL
QUALITY**
